

Jenette

Fernando and Humberto Campana

General description:

Structure of the chair – seat and legs – in moulded polyurethane, from which a wrapping, comfortable and flexible backrest realised in 900 flexible stalks in PVC hides an internal metal structure.

Technical description:

Realised in stamped rigid polyurethane, containing a metal structure totally immersed in it.

Lacquered in matt polyurethane paints - colours available in the sampler.

Backrest in flexible PVC stalks, colored as per the seat.
