

Struttura: in legno massello con molleggio garantito da cinghie elastiche ad alta componente di caucciù.

Preparazione della struttura: imbottitura seduta realizzata con differenti quote di poliuretani ad alta resilienza, aggregati tra loro in modo da ottenere un comfort anatomico, differenziato e di lunga durata. Tutta la struttura, infine, è rivestita con trapuntino in piuma d'oca canalizzata che conferisce morbidezza dando al blocco seduta l'aspetto di un unico accogliente grande cuscino.

Cuscinatura: cuscini schienale completamente imbottiti in piuma d'oca canalizzata.

Piedini: appoggio a terra tramite piedini in metallo, Ø 25 mm, con finitura Black-Nickel lucido e scivolante protettivo in nylon.

Sfoderabilità: cuscini schienale e struttura completamente sfoderabili in tessuto.

N.B.: il panchetto cm 83x83, data la corrispondenza con la profondità di seduta del sistema Donovan, è indicato per essere aggregato agli elementi penisola senza bracciolo, lato penisola. Il panchetto cm 103x103, data la sua corrispondenza con la profondità totale del modello, è indicato per essere aggregato agli elementi penisola senza bracciolo, lato schienale.

Frame: solid wood. Frame let into elastic straps with a high rubber content.

Frame preparation: seat padding with high-resiliency polyurethane foam in different densities, that has been aggregated for anatomical, differentiated and long-lasting comfort. All the frame has a channeled goose down padding to enhance softness and make the seating appear like a big inviting cushion.

Cushions: channeled goose down filling for the backrest cushions.

Feet: metal, Ø 25 mm, glossy Black-Nickel finish. Protective nylon glides.

Cover: fully removable fabric covers for the backrest cushions and frame.

N.B.: the 83x83 cm bench has the same depth as the seat and can be linked to the sections without an armrest on the peninsula side. The 103x103 cm bench corresponds to the total depth of the model and can be linked to the sections without armrests, at the back.

Struktur: Massivholz, Federung garantiert mit elastischen Riemen mit hohem Kautschukanteil.

Aufbereitung des Gestells: Sitzkissenpolsterung mit unterschiedlich dickem, hochhochelastischem Polyurethan, untereinander so kombiniert, dass der anatomische Komfort differenziert und auf Langzeitdauer garantiert ist. Die gesamte Struktur ist mit kanalisiert belüftetem Stepp bezogen, der die Sitzfläche einladend weich macht und sie wie ein einziges großes Kissen erscheinen lässt.

Kissen: Die Rückenlehnenkissen sind mit kanalisiert belüfteter Daunenfüllung ausgestattet.

Füße: Black-Nickel-farbig hochglanzlackierte Metallfüße mit 25 mm Ø mit Bodenauflage aus gleitfähigem Nylonschutz.

Abziehbarkeit: Stoffbezug der Rückenlehnenkissen und Struktur vollkommen abziehbar.

N.B.: Die Sitzbank im Format von 83x83 cm eignet sich, aufgrund der gleichen Sitztiefe, zur Kombination mit den Halbinselementen ohne Armlehne, an der Seite der Halbinsel. Die Sitzbank im Format von 103x103 cm eignet sich, da sie der Gesamttiefe des Modells entspricht, zur Kombination mit den Halbinselementen ohne Armlehne, auf der Rückenlehenseite.

Structure : en bois massif, suspension garantie par des courroies élastiques à teneur élevée en caoutchouc.

Préparation de la structure : rembourrage de l'assise réalisé avec différentes hauteurs de polyuréthanes à haute résilience, unies de façon à obtenir un confort anatomique, différencié et de longue durée. Enfin, toute la structure est recouverte d'une petite couette en plume d'oe canalisée pour plus de souplesse, donnant au bloc assise l'aspect d'un unique grand coussin accueillant.

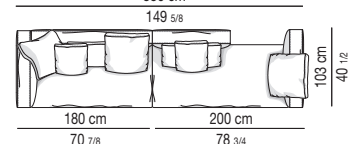

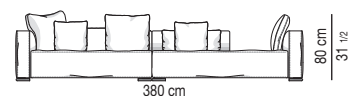

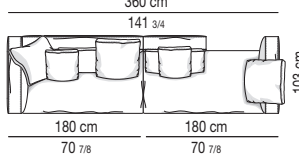

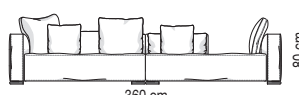

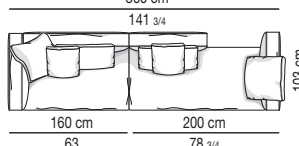

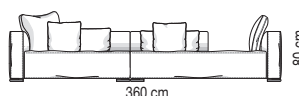

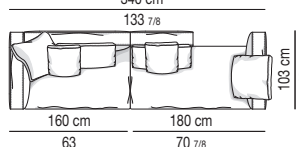

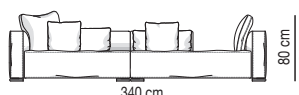

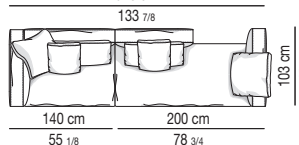

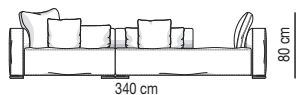

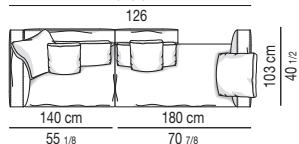

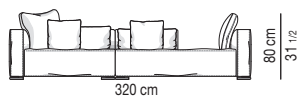

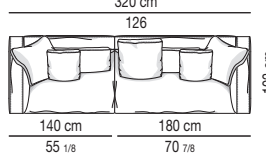

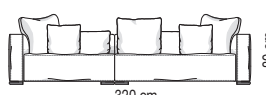

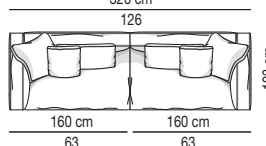

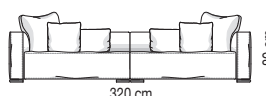

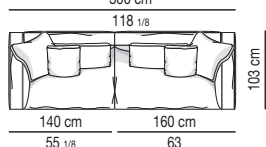

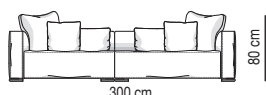

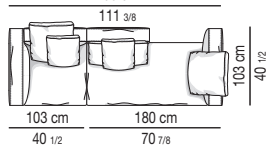

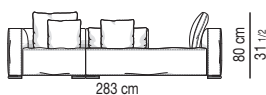

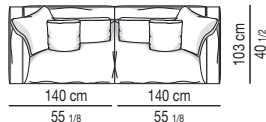

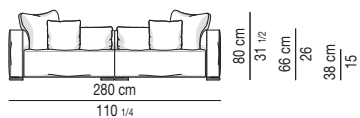

Coussins : coussins et dossier entièrement rembourrés en plume d'oe canalisée.

Pieds : pieds d'appui au sol en métal Ø 25 mm, finition Black-Nickel brillant. Patins de protection en nylon.

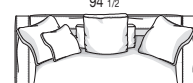

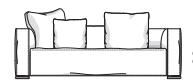

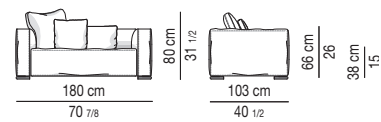

Déhoussage : coussins, dossier et structure complètement déhoussables qu'ils soient en tissu.

N.B. : pour sa correspondance avec la profondeur de l'assise, le banc de 83x83 cm est indiqué pour être uni aux éléments péninsule sans accoudoir, côté péninsule. Pour sa correspondance avec la profondeur totale du modèle, le banc de 103x103 cm est indiqué pour être uni aux éléments péninsule sans accoudoir, côté dossier.

HIGHLIGHTS

01 La seduta monoblocco: uno degli elementi novità di Donovan è l'elemento seduta monoblocco, che crea una seduta continua senza le classiche "spezzature" tra un posto a sedere e l'altro. Il trapuntino in piuma d'oca conferisce morbidezza alla seduta dandole l'aspetto di un unico accogliente cuscino.

One-piece seating: one of the new elements in Donovan is the one-piece seat element, which creates a continuous seat cushion without the usual "separation" between one seat and another. The quilted goose down gives enhanced softness making the seat look like one single comfortable cushion.

02 Composizioni dinamiche: gli elementi del sistema di sedute Donovan sono concepiti per creare componibilità molto trasversali, da quelle più tradizionali fino a soluzioni con elementi asimmetrici che conferiscono unicità alle composizioni. Originalità di composizione anche grazie ai moduli con schienale "interrotto" che possono essere integrati dai nuovi tavolini Leger "Black-Nickel".

Versatile compositions: the elements in the Donovan system are designed to create a very broad range of combinations, from the more traditional to those with an asymmetrical look for the most unique arrangement. Original compositions are possible by using the special open-back elements which may be completed by the new serie of coffee table Leger "Black-Nickel".
