

NAME / Index

DESIGN / Felicia Ferrone

DESCRIPTION / wall-mounted mirror, with a characteristic cylinder shape in stainless steel. The integrated rotating two-sided mirror is mirror on one side and magnifier on the other one.

**TECHNICAL
FEATURES /** tube in satin stainless steel.
4 mm. thick mirror + magnifying mirror
External diameter: 220 mm., d.150 mm.

Index, a reversible mirror (magnification and standard mirrors), is like a little jewel for your wall, reflecting the light and space it captures. Index takes the extendible mirror and turns it into a sculpture that is architectural in form, through its geometry and use of materials.

F.Ferrone
