Identification

Name MUFFINS MINI WOOD 06

Type table lamp

Collection MUFFINS

Line Exclusive Line

Designed by Lucie Koldová a Dan Yeffet

BROKIS

Description

Features

Muffin lamps convey a truly extraordinary lighting experience. Their puffy, round shapes and combination of traditional hand-blown tinted glass, oak, and gentle light fill any space with a special aura. The singular design and exceptional quality of the Muffin lamps caught the attention of Yves Saint Lorraine, which used them in a TV advertisement for its 2011 men's collection. The Muffin collection comprises three basic variants – floor, ceiling, and table – that can be fitted with a wooden lamp body as well as different glass shades in subtle tones of grey, brown, and yellow.

Technology

The craftsmanship applied in production follows in the centuries-old tradition and experience of master glassmakers. The precision crafting of hand-blown glass instills distinctive, enduring character and outstanding quality in all Brokis products. The glass shades are formed from multiple layers of molten glass, each of which is scrutinized by the master glassmaker prior to being blown into the mold. Up to 70% of the resulting quality is achieved in this stage of production. No less attention to detail is paid in handcrafting the wooden elements of the light. Each piece is individually processed by the artisan in a series of strictly observed production stages. We take special care in selecting quality fine wood and ecologically friendly materials to treat it with.
