

# Alice

## Jacopo Foggini

### General description:

Rigid outdoor armchair in translucent polycarbonate. The plastic rope is skillfully applied manually with artistic gestures.

After its solidification it gives form to a resistant and semitransparent monocoque seat.

Alice is the fruit of the working technique of the artist Jacopo Foggini, who chose for this creation the shades of green, petrol blue with lemon yellow, fuchsia pink.

It is equipped with a 5 meter LED light strip, fixed inside the shell, which allows also an outdoor illumination.

### Technical description:

Monocoque polycarbonate structure.

Scratch proof tips in antislip rubber.

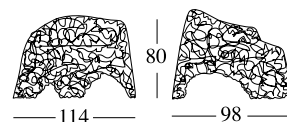

48W LED strip illumination, with power transformer

Suitable for outdoor use.

On request, product can be realised also according to other regulations.
