

Favela

Fernando and Humberto Campana

General description:

An armchair without any structure, totally handcrafted with many pieces of natural wood, similar to those used in Brasil to build the shacks in the Favelas, skillfully nailed and glued together one over the other in a random way. The hand crafting makes each seat a unique piece. Also available in teak for outdoor use.

Technical description:

Structure in natural pine wood or in teak.
Plastic scratch proof tips.
The version in teak is also for outdoor use.
